

Timeline

On 2019-01-29, a discord conversation starts up between users crayfish1980 and heresjohnny1. The two suspects.

On 2019-01-30 at 10:06:42, we can see the owner of the laptop, Steve, access images of Eastbourne Library (f_000033 and f_00007b). At 12:42:21 we can see Steve download and run CCleaner performing encryption

On 2019-01-31 at 10:20 we can see the user take a snapshot of Google maps where the user names it to Method run.jpg at 10:22:24, showing a route going between Eastbourne, Wainuiomata, Naenae and Stokes Valley. We can see at 10:25:05 take another snapshot of Google maps where the user names it to airport crystals.jpg at 10:25:18.

On 2019-01-31 at 11:58:18, we can see in Discord logs, showing talk of a new supplier, and a new document being put together and the user to let know what he thinks of it.

On 2019-01-31 at 13:13:20 we can see Steve download BNE.png from a email accessed on protonmail. Seven minutes later at 13:19:15, the user runs an Image Steganography program to extract an image package.png, which contains three packages.

On 2019-02-02 at 14:04:40 we can see images containing locations of libraries that are situated along the route seen in Method run.jpg.

At 2019-02-02 at 14:05:42, we can see the user take a snapshot of Google, where the user names it to dropoff.jpg at 14:06:06, showing a google maps view of Eastbourne library.

On 2019-02-02 at 2:30:33, we can see Discord logs, stating a meet occurring at Eastbourne library and if they miss each other to meet at 666 Rewera Avenue.

On 2019-02-02 at 15:16:58 and 15:28:28 files are downloaded from Discord, named Steve_K.png, which is later changed to flight bookings.PNG, which contains a return flight ticket from Brisbane to Wellington.
